WEDNESDAY, DECEMBER 29, 1858. Reading Matter on every page. PLAYING POEER UNDER DISADVANTAGES .- Dan'l

Ward and Otis Forrester are in jail at Cinciunati for swindling a passenger on the Tolograph and for graud larceny and vagrancy. The history of their arrest is as follows: They were passengers on the steamor Telegraph from Louisville, aboard of which, was a rough, unsophisticated individual named Linsley. A game of poker was proposed, hut the latter held back, and the two former pro ceeded to bet by themselves. Linsley looked ou for some time, until be came to the conclusion that they were no great shakes of poker players, and finally consented to take a hand. The game waxed warm, uutil Linsley was burnt to the tune of \$102. If he held kings, one of the pair would exhibit aces; if he bet upon "threes," his opponent was sure to have a "full," and so on until the boat arrived at her wharf, by which time he came to the conclusion that he had been acting the part of a pigeon whose feathers were most essentially plucked-a fact which he lost no time in communicating to the river police, who boarded the boat upon her arrival, and who, before the aforesaid fashionably dressed young men were allowed sufficient time to become non est, had them in custody, and as soon after as they were taken to the station house, searched, when they took from them \$700, together with the \$102 won from Linsley.

It is one of the wonders of the world, and so ingularly beantiful that one can scarcely believe t a real view. There never was any spectacle on anvas more gorgeous than the views of Venice iven by Mr. Waugh in his Italia. There are the ondolas and richly caparisoned State barges, oking like so many fairy creatures floating on s sea of silver. Words cannot do justice to it. It

Union Prayer Meetings .- We understand that the Union prayer meetings, held every morning at 81/4 o'clock, at the Library Rooms, on Fourth street, has recently been greatly increased in inerest. On Monday and Tucsday mornings of this week the exercises were led by friends of the cause from Cincinnati, and rendered exceedingly interesting by remarks from Judge Sterer, Prof. Sayler, and others. The members of our own churches, of different denominations, seem to be in the right spirit, denominational lines being obliterated so far as these efforts are concerned; and there is reason to believe that the Union prayer neetings will accomplish great good. We trust that these hopes will be fully realized.

We are happy to inform our readers that the celebrated Mr. Joseph Meyer, practical chemist, inventor and proprietor of "Meyer's Miraculous Vermin Destroyer," for the destruction of all kinds of vermin and insects, rats, mice, bugs, fleas, noths, musquitos, etc., for which he has acquired reat regutation, and received decorations from nearly all the courts of Europe, and given proof in this country of their miraculous power, will shorty visit our city and supply our druggists and nerchants with them.

Our citizens will now have an opportunity of btaining a remedy that is sure to exterminate hese unwelcome intruders.

THE NATIONAL HOTEL .- Since Messrs. Watts. Rogers & Co. took the saloon of this splendid esablishment, there has been a wonderful increase u its patronage, as well as in the qualities of the piritual comport provided for the thirsty public. A magnificent lunch is set every morning at 1016 'clock, to which the hungry, famishing, and starved are peculiarly and particularly invited. This morning there will be superb oyster soup. In this connection, we may us well say that the Hudson Hall keeps ou the noiseless tenor of its way, dtrected by the affahle Rogers and the genlal

THEATER-CHILDREN OF CYPRUS .- The grand riental and fairy spectacle passed off with splenlid eclat last night. The machinery moved like lock work, and all the appointments of the piece were perfect in their places. Messrs. Maesta and West deserve great oredit for the scenery they have painted expressly for this occasion. It is really artistic, and many portions of it reduced would make fine parlor ornaments. Every one who has officiated in the Children of Cyprus deserves credit, and we shall take pleasure in devoting space to particular mention of one and all. The piece runs through the week. KENTUCKY MECHANICS' INSTITUTE. Sixth Annual Meeting-Reports-Elec-

Last evening, the sixth annual meeting of the nembers of the Kentucky Mechanics' Institute, was held in the Library Rooms, Fourth street. The executive committee submitted their aunual budget, all of which was received and ap-

proved. The report of the Actuary, D. Mcl'herson, Esq., represents the affairs of the Institute in the most flattering condition. At no time since its organization has the association been so prosperous. It is now established upon a firm and stable basis, and has well fulfilled the wishes and objects of its projectors. The finances are remarkably secure, the excess of receipts over expenditures being \$1,655 25. Receipts the past year, \$6,993 45, and expenses, \$5,838 16. The last exhibition was the most successful yet held by the Institute, the receipts being \$3,283 50, and expenses \$2,543 67. Excess, \$1,224 83.

Corcerning the library, the report presents some very interesting statistics. There are at present in the library, 5,549 volumes, and since January 1st, 1858, there have been circulated 15,427 volumes, showing a gratifying disposition towards intellectual culture upon the part of the members. The volumes circulated are thus classified : 97 Education.. 950 Medical... 74 Theology...

. 57 Law. . 642 Blography. . 837 History. . 555 Travels. . 5,412 Sporting. . 1,227 Dramatic. . 835 Miscellance The above affords a very fair index of the literery or book reading tastes of our people. It will e seen that the preponderance in favor of fiction s very great. This is the case everywhere, and with all classes. The library committee have had inder consideration a proposition to do away with he purchase of light literature in considerable uantities, but have wisely resolved to yield to the ery decided manifestation of popular taste. In. leed, we believe that there cannot be found upon

he shelves of the Institute a single objectionable By a recent judicious purchase of six hundred ollars worth of choice works, the value of the brary will be still farther enhanced. It has aleady become a popular 'place of resort, and Is specially attractive to youth. Many young men pend their evenings there, who but for its atactiveness might be indulging in the grossest rms of dissipation. The readers are thus class-

California. HEAVY EARTHQUAKE .- An earthquake of unu ual violence was felt in California on the mornug of the 26th. The San Francisco Herald thus

At twenty-seven minutes before one o'clock yes erday morning, our city was visited by one of the most violent shocks of earthquake that has seen experienced since California came into Amercan possession. It was preceded by a deep anabling noise coming from the northeast, which counded as if heavily loaded teams or wagons were being driven furiously through our streets. This was numediatly succeeded by his was immediately succeeded by a premonito r shock, instantly lollowed by a still heavier ne, which lasted about ten or twelve seconds. an intermission of some five or six seconds en-ued, when a third shock, much heavier and more rolonged than the second, succeeded, raising the ears of our citizens to a painful degree. The cotion was mudulating, and from northeast to outhwest, and the solid earth moved as if sud enly converted into ocean waves. The alarm

was universal, and anxiety was depicted on every lace, to know whether nature would continue in convulsion, or sink hack to her usual rest.

Dogs barked with fear, and even the horses in the statement of the state es exhibited unmistakable symptoms of dread most residences the bells were violent hile the crockery and glassware kept up a lively attering; clocks suddenly stood still, the regular otion of their pendulums being rudely interferd with, and atticles of furniture seemed as if aspired by Terpsichore. After a careful inquiry to have been unable to learn of any serious dam ege, except that occasioned through excessive ear, although quite a number of little incidents occurred indicating in some sort the strength of the shock. A considerable portion of the cornice and plaster in the United States District Court om was thrown down, and many other buildugs suffered in the same way. The City Hall was tolently shaken, and some of the plaster knocked down. Cracks and rents of considerable size ed down. Cracks and rents of considerable size have made their appearance in a number of our large brick buildings, hut, beyond these incidents, we learn of no serious disaster. The repeated visitations of this kind to which we are subject, ould seem to indicate a more prudent method of hilding than that which has been pursued,— rick houses should not exceed two stories in ight, and should have broad foundations and back, well cemented walls. The Sacramento of yesterday says:

"About 1 o'clock this morning, a slight shock of n earthquake was felt in this city. The vibra-ons were very distinctly felt for a few seconds, out were not sufficiently powerful to disturb the urse of human events.

THE KENTUCKY TEACHERS' ASSOCIATION. Second Annual Meeting.

The Kentucky Teachers' Association, which was rganized in this city about one year since, and which held a meeting in Lexington last July, convened yesterday morning in the building of the Female High School. It gratifies us exceedingly to witness the inter-

est that is being taken in so important a movement, and we wonder that every instructor of youth does not enlist in the good cause. The design of the association is to elevate the standard of education in the State, and to eunoble the profession of the teacher. That occupation can, however, scarcely be enuchled. Without question, i is the most important, saving that of the minister, in the land. It exercises a wider and more potent influence than any other, since it wields its power upon a class whose minds are plastic and ready to receive any impression whatsoever. How weighty, then, the obligations of the teacher to society. His is the prevince, not alone to make cultivated men and womeu-to render them fit or the duties of life-to give them brightness funderstanding and a wide range of learning, but to instill the loftier and noble principles of hu manity and religion. The time has been when the teacher was regarded by the community at arge in no favorable light, and even Dr. John son apologized for the fact of the gloriously gifted Milton having once been a teacher. Happuly that period has passed, and the teacher occupies his just position in the ranks of the learned professions. MORNING SESSION.

1,466 1,814 1,469 A preliminary organization was had by the apointment of Prof. John A. Williams, of Harrodsurg, chairman, and Prof. W. W. Harney, of ouisville, secretary.

No especial business was transacted save the nterchange of courtesies, and appointment of a ommittee to arrange a programme of action. AFTERNOON SESSION. The association should have convened at three

'clock, but the members were tardy. We recuber, when a boy, that punctuality was a carlinal law with our teacher, and any infringement f it was sure to meet with a reprimand, if not mething more unpleasant. Finally Prof. E. A. Grant, of Frankfort, took

ho chair as regular president. The committee on business reported through ne chairman, J. C. Risk, of Lincoln county. Prof. Holyoke made a statement concerning his

ction as secretary, and his effort to establish a veekly paper, as directed at the last meeting .te had attempted to obtain lists of the teachers the State by addressing the school commisioners in each county, but had obtained responses rom but five or six. He thought that something latermined and definite should he done. A paer to advocate home and school education was essentially requisite. It would require about fory dollars per week to publish such a sheet as had een proposed-that is, for two thousand copies. Prof. Jewry, of Georgetown, moved the refernce to a committee of the whole matter, which as adopted.

One of the subjects for discussion was then aken up: Should a mere certificate of scholarship o regarded as the requisite qualification for a

IMPOSING MASONIC DEMONSTRATION. Installation of Officers.

Masonic Temple was the scene, last evening, of one of the most brilliant pageants that we have witnessed for many years. The immense assemblage was convened upon the occasion of the installation of the officers of the thirteen lodges located in this city. It seldom occurs that this rite of Ancient Masonry is performed in public. The exercises of last night, however, justify the propriety of such demonstration. They afford he public an opportunity of judging of the priniples of the veteran order, and served to dispel whatever prejudices may exist in the popular

WAR IN KANAIS—FORT SCOTT TAKEN BY MONT'SOMERY.—We learn through Thomas Mnrray, Esq., editor of the Warsaw Democrat, the following particulars in regard to a recent outrage by Montgomery's bandith—Mr. R. H. Melton, of Warsaw, being Mr. Murray's informant.

It appears that one of Montgomery's men had been indicted for murder in the first degree, and was confined in the jail of Fort Scott, Kansaa.—Montgomery demanded his release, and threatoned if he were not set at liberty, to destroy the town. Of course the citizens of Fort Scott refused to comply with his request, and furthermore sent their defiance to Montgomery.

We call attention to this book, that it may lead that the land thus appropriated may not fall into to an investigation of the subject by heads of the hands of monopolists and speculators, and families, and those who are interested in the preservation of common morality and a sound physical condition of our society. The Government should the glaring fact, that every old citizen recognizes. go into this measure very cautiously, and should of the growing degeneracy alike of our morals and our manners.

From a mass of facis, collected in a book of jects. nearly 700 pages, we climinate a few principles which are already proven, and which should serve subject. The first and most important is that the vice of prostitution cannot be extirpated by any human legislation, and prohibitory laws have resulted in an extension and increase of the vice .-Secondly, that by a system of combined police and medical supervision, the vice itself may be controlled, and the horrible diseases supervening limited in their extent and character. No man can rise from the study of this book with any other view. It is a social evil that is undermining and destroying the fabric of society; and it well becomes those who aspire to give direction to public thought, to take some steps towards managing this vice and preventing its disastrous consequences.

When the fact is brought home to us that in this city two years since there were 113 houses of prostitution and assignation, and nearly 400 unchaste women, of whom 214 were public prosti tutes, it becomes our duty to adopt some sanitary neasures in regard to it. An indiscriminate onslaught on these houses, and a dispersal of their inmates, unhappily produces a result exactly the reverse of what is desired, as this city can testify, to her sorrow. Some four years since a very well meaning but very unwise council poured ont upon the denizens of Lafavette street their virtuous wrath, and supposed that in scattering this festering local sore, they had cured it. Any resident of the suburbs will testify that since this dispersion, prostitution has largely increased, flaunts the atreets openly, and has planted in every little neighborhood a seminary of vice to corrupt the children of the poor. It is time all this should be

Under the present system a single false step in a young man, almost surely entails upon him disease of a character that shutters his constitution, and taints with a heritage of woe his unhappy children. Under the system proposed by Dr. Sanger, while the evil would not be cured, it would be modified. The public press is not, however, the place for a discussion of this sort, and we only mention the hook and its merits to call the earnest attention of those whose duty is is to care for it to the subject. Having thus done our duty, we dismiss the matter.

SEIZURE UPON CUBA BY ATTACHMENT. - The Washington Union indorses the proposition of Senator Davia to proceed by attachment against Spain as an absent, absconding, or fraudulent debtor, and levy upon Cuha. It devotes a column to the subject, and closes as follows:

Mr. Davis proposes, under all the circumstances, that the Federal Government shall notify Spain and demand payment of certain indebtedness, and, in default thereof, that attachment issue with directions to ness, and, in default thereof, that attachment issue with directions to our naval constables to seize the island of Cubs. In equity Mr. Davis is right. Spain has justly forfeited all claim to the forbearance of the United States. The island has been governed for twenty years on the idea that England and France would not consent to its falling into our hands. It has been regarded as perfectly safe to treat our people as barbarians and pirates; to arrest them, confiscate their property, and, even when prononneed iunocent in criminal prosecutions, to refuse not only to return their estates, but make them pay enormous costs. The whole judicial system of Cubs is in the hands or under the control of the Government, but it is its practice; so that all authority, wherever and by whomsoever exercised, is a unit.

Important to the Public:

In Public Course, is in the city, on his first visit here. His paper has taken a deep interest in the Southern Pacific railroad, and its reports of the proceedings at the recent Louis-ville convention were so full and accurate, as to be adopted almost word for word by the Convention Committee on Publication, who publicly paid the Conrier a high compliment.

Mr. Durrett, we trust, will leave our city with such impressions of it as will induce him to pay us annual visita.—N. O. Pic.

It is well known, though higher in price, have always been cheaper in fact, when taken into consideration that they will do all kinds of Sewing. The prices are greatly reduced. Call and eee them.

France.—The ports of Cochin China have been declared by the French Admiral as under blockdoned every hope. A single trial will convince the most incredulous of its efficacy in curing that class of diseases for which it is designed. Why is it that so many die every year of consumption, or some other disease of the lungs? Recause they neglect its sure forerunner, a "etmple cold," which might be easily cured by the prompt use of a single bottle of Dr. J ha Bull's ade.

The steamer Jura will be dispatched by the Cunard line as an extra boat for New York on the "Compound Pectoral of Wild Cherry." We say, therefore, try it, by all means. If this does not cure vot nard line as an extra boat for New York on the lat of January.

The Earl of Catuaervon has declared the dissent of the government to the recommendations made in Mr. Young's purloined dispatch in relation to the Ionian Islands.

Baron Rothschild has contributed £2,000 to found a scholarship in the city of London school, in commemoration of his admission as a Jew to a seat in the British Parliament.

The judicial committee of the Privy Council has confirmed the declaration that the American ship North American and the Spanish vessel, with which the former came in collision were, both to blame for the occurrence. Sold by all Druggists, everywhere.

STOMACH OR LIVER.

Such as Indigestion, Acidity of the Stomach, Colleky Pains, Heartburn, Loss of Appetite, Despondency, Coativeuess, Bilma and Bleeding Files. In all Nervous, Rheumatic, and no Bleeding Files. In all Nervous, Rheumatic, and Neuralgic Affections, It has lu numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on scrictly scientific principles after the manner of the celebrated iloliand Professor, Burhave. Because of its great success lu most of the European States, its lutroduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its traity wonderful medicinal virtues must be acknowledged.

It la particularly recommended to those persons whose constitutions may have been impaired by the continuous ose of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drouping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful arounatic cordial, possessed of singular remedial properties. STOMACH OR LIVER,

porter of the Associated Press was made ac quainted with these reports, and replies as follows: WASHINOTON, Dec. 25.—The dispatch published in the North American and Ledger is the same as appears in the Baltimore Sun. It was sent specially by Ben. Perley Poore, Esq., to the Boston Journal, and hecaphot account for its publication in the other papers named. We doubt the truth of it here, although we are satisfied that Mr Poore obtained his information from a source entitled to credit; in other words, these most interested have no such information. We will endeavor to ascertain the origin of the Tribune's dispatch as soon as possible.

CAUTION: The great popularity of this delightful Aroma has in duced many imitations, which the purity should guard against purchasing. thaving had the advantage of a thorough Dental education, offer their Professional services to the citizens of Louisville and vicinity. Dr. Fitta's skilling Mechanical Dentistry can be seen at their office, specimens of which took the first Premium and Diploma at the United States Fair in 1857. Dr. Wilson has been treating aching teeth successfully for the last five yerrs by destroying the narve without pain, filling the fangs and crown with gold, rest ring the tooth to its natural shape, and making it as useful as before decay. Do not have your teeth extracted until you are certain they cannot be saved—More than fifty per cent. of the teeth usually extracted oan be made useful through life. We are daily treating and filling teeth of this class that comes in to be extracted. In no case do we disfigure a tooth by filling to fill it, using other and better recans than the Indiscriminate use of the file. Any tooth can be filied with gold that is worthfilling at all. We use, when requested, a local anesthesia to prevent pain in extracting teeth.

All operations warranted as represented, and terms as liberal as a sny good Dentist can afford.

N. B.—Call and have your teeth examined and onr advice gratic.
